New Mexico’s energy efficiency industry is thriving. Let’s keep it that way.

Nearly 6,000 people work in New Mexico’s growing energy-efficiency sector. Energy efficiency jobs:

- are woven throughout New Mexico’s economy, from manufacturing to professional services to engineering
- include a range of professions; six are shown here

From design and construction to weatherization work, New Mexico’s energy efficiency workforce matters.

Energy efficiency improves quality of life. It:

- creates jobs
- grows the economy
- saves New Mexicans money on their energy bills, helping balance family budgets

Please support policies and programs to help keep New Mexico’s energy efficiency workforce strong.
Introducing a few of the ~6,000 New Mexico energy efficiency pros

Robert Foley, International Center for Appropriate and Sustainable Technology, Fruitland, NM  
District: NM03

William Eckman, The EnergySmart Academy at Santa Fe Community College, Santa Fe, NM  
District: NM03

Tim Gallegos, GAF, Albuquerque, NM  
District: NM01

“I [process] certifications that keep people employed in [the] EE field.”  
Evelyn Gonzales, Santa Fe Community College, Santa Fe, NM  
District: NM03
