Texas’s energy efficiency industry is thriving. Let’s keep it that way.

Nearly 163,000 people work in Texas’s growing energy-efficiency sector. Energy efficiency jobs:

- are woven throughout Texas’s economy, from manufacturing to professional services to engineering
- include a range of professions; seventy-nine are shown here

From design and construction to weatherization work, Texas’s energy efficiency workforce matters.

Energy efficiency improves quality of life. It:

- creates jobs
- grows the economy
- saves Texans money on their energy bills, helping balance family budgets

Please support policies and programs that will help keep Texas’s energy efficiency workforce strong.

My role is to educate customers on weatherization & energy conservation.

Jessica Gaskill, BakerRipley, Houston, TX

We develop software for cost effectiveness testing & EE program tracking.

Swaminathan Balakrishnan, ANB Systems, Sugar Land, TX

Faces of EE is an educational initiative led by E4TheFuture, a nonprofit organization dedicated to bringing clean energy home for all Americans.
