Washington’s energy efficiency industry is thriving. Let’s keep it that way.

Nearly 64,000 people work in Washington’s growing energy-efficiency sector. Energy efficiency jobs:

- are woven throughout Washington’s economy, from manufacturing to professional services to engineering
- include a range of professions; eleven are shown here

From design and construction to weatherization work, Washington’s energy efficiency workforce matters.

Energy efficiency improves quality of life. It:

- creates jobs
- grows the economy
- saves Washingtonians money on their energy bills, helping balance family budgets

Please support policies and programs that will help keep Washington’s energy efficiency workforce strong.
