Energy efficiency: America's Job-creation powerhouse 

**North Dakota's** energy efficiency industry creates good jobs, lowers bills, and strengthens the economy.

As of October 2020, 4,784 people work in North Dakota's energy-efficiency sector.

**North Dakota's energy efficiency workforce is historically a job-creation powerhouse. This sector was hit hard by the COVID-19 pandemic. Support for energy efficiency will create jobs and save North Dakotans money on energy bills helping balance family budgets during difficult times.**

Energy efficiency is key to economic recovery. Please support policies and programs that will enable North Dakota's energy efficiency sector to create jobs and provide benefits for communities.

**I am an assistant crew lead & weatherization technician.**
