Energy efficiency: America's Job-creation powerhouse 

Arkansas's energy efficiency industry creates good jobs, lowers bills, and strengthens the economy.

15,006 people work in Arkansas's energy-efficiency sector.

Energy efficiency jobs are in every Arkansas county. Woven through communities via manufacturing, construction, professional services, and more, EE jobs are the backbone of the energy sector.

Support for energy efficiency will save Arkansans money and help restore local economies.

Energy efficiency is key to recovery and future growth.

Please support policies and programs that will enable Arkansas's energy efficiency sector to create jobs and provide benefits for communities.
