Energy efficiency:
America's
Job-creation
powerhouse

Arizona’s energy efficiency industry creates good jobs, lowers bills, and strengthens the economy.

42,638 people work in Arizona’s energy-efficiency sector.

Energy efficiency jobs are in every Arizona county. Woven through communities via manufacturing, construction, professional services, and more, EE jobs are the backbone of the energy sector.

Support for energy efficiency will save Arizonans money and boost local economies.

Energy efficiency is key to equitable growth.

Please support policies and programs that will enable Arizona’s energy efficiency sector to create jobs and provide benefits for communities.

“I train builders [to construct] energy efficient homes.
