

SUPPORT YOUR LOCAL ENERGY EFFICIENCY INDUSTRY

“EE is about solutions that help people while making the world a better place.”

Cyrus Bhedwar, Director, Office of Sustainability Initiatives, Emory University, Decatur, GA

Georgia's energy efficiency industry creates good jobs, lowers bills, and strengthens the economy.

55,605 people work in Georgia's energy-efficiency sector.

Energy efficiency jobs are in nearly every Georgia county. Woven through communities via manufacturing, construction, professional services, and more, EE jobs are the backbone of the energy sector.

Support for energy efficiency will save Georgians money and boost local economies.

Energy efficiency is key to equitable growth.

Please support policies and programs that will enable Georgia's energy efficiency sector to create jobs and provide benefits for communities.

“I blog and speak [about energy efficiency], sell and manage.”

Allison Bailes III, Energy Vanguard, Tucker, GA

Faces of EE is an educational initiative led by E4TheFuture, a nonprofit organization dedicated to bringing clean energy home for all Americans.
