Energy efficiency: America's Job-creation powerhouse

Massachusetts's energy efficiency industry creates good jobs, lowers bills, and strengthens the economy.

81,244 people work in Massachusetts's energy efficiency sector.

Energy efficiency jobs are in every Massachusetts county. Woven through communities via manufacturing, construction, professional services, and more, EE jobs are the backbone of the energy sector.

Support for energy efficiency will save Bay Staters money and boost local economies.

Energy efficiency is key to equitable growth.

Please support policies and programs that will enable Massachusetts's energy efficiency sector to create jobs and provide benefits for communities.

EE provides multiple benefits to homeowners.
