

75,085 Jobs

SUPPORT YOUR LOCAL ENERGY EFFICIENCY INDUSTRY

I manage my company's programs [that provide] rebates for EE improvements.

Thac Nguyen, DTE Energy, Grosse Pointe, MI

Michigan's energy efficiency industry creates good jobs, lowers bills, and strengthens the economy.

75,085 people work in Michigan's energy-efficiency sector.

Energy efficiency jobs are in every Michigan county. Woven through communities via manufacturing, construction, professional services, and more, EE jobs are the backbone of the energy sector.

Support for energy efficiency will save Michiganders money and boost local economies.

Energy efficiency is key to equitable growth.

Please support policies and programs that will enable Michigan's energy efficiency sector to create jobs and provide benefits for communities.

We help homeowners find big and small ways to reduce energy waste.

Mandy Fuller, ICF International, Okemos, MI

Faces of EE is an educational initiative led by E4TheFuture, a nonprofit organization dedicated to bringing clean energy home for all Americans.
